## Enservio Launches New Claims Consulting Service

**Main goal of consultative service will be to create personalized plans for improving financial and operational efficiency, as well as a strategic road map.**

Enservio says the group will partner with insurance carriers to develop strategies to facilitate the development of business solutions; craft a strategic roadmap; assess underlying risk to price policies; create optimal customer experiences; and enhance the policyholder experience in the adjustment life cycle.

As part of the new service, EnservioQ consultants will create personalized implementation plans based on an assessment of business needs; a business, industry and performance solution alignment; and a benefits and value determination, says Enservio. The end result of the consultative process is the creation of a strategic roadmap.
