

We're Here to Help Support You and Your Family

Personalized, Individual Inventory and Contents

When you've experienced a loss, many professionals are involved in helping you get your life back in order. Whereas restoration vendors help to identify and repair those belongings that can be restored, your insurance carrier has retained Enservio to work with you to inventory those items that are damaged beyond repair.

Service On Site

Our Service on Site (SOS) specialists are trained and certified to help you create an inventory of the contents in your home – with as little or as much involvement as you would like. The inventory process can be extremely tedious and complex in a situation that is already overwhelming and filled with emotion and uncertainty.

We Value Picassos to Power Tools

Our knowledgeable professionals will help you walk through your property to create a comprehensive summary of the contents you have lost. From Picassos to power tools, to your grandmother's prized antique cabinet to discontinued items, we do it all. We will then help you value the items and work with your carrier on settlement to help you get your valuable belongings back on a timely basis.

"I am so thankful for the help I received. I had no idea where to start. My insurance company brought in professionals... Enservio carefully captured all of my lost property – they showed great respect for my possessions and patience."

-Policyholder, Newington, CT

Getting Started

- A certified SOS property specialist is assigned to your claim.
- The SOS specialist works with you to inventory your loss – room by room, facilitating a complete reconstruction of your personal property, and expediting the settlement of your claim.
- On certain claims, your SOS professional will take the list created and help you value each item, determining the best real-time pricing, as well as the appropriate replacement outlet.
- We will review each step of the process with you to address any areas of concern and ensure you and your adjuster have a comprehensive report of our findings.
- Your adjuster will be in touch with the final settlement documents as well as an estimated timeframe for payments. Be sure not to dispose of any contents until you've heard from your adjuster to complete the claim.

At Enservio, our goal is simple – to help you get your stuff back.

About Enservio:

Founded in 2004, Enservio is the leader in contents claims services, helping policyholders across the US restore their lives.
