

ListAssist Transcription for Policyholders

**GET YOUR
POLICYHOLDERS**

**LIFE BACK
QUICKLY**

ListAssist® is a real-time transcription for your policyholders that makes the inventory capture process quick and easy for all parties. Enservio professionals work directly with your policyholders to reconstruct their inventory lists. This service makes it easy for your insureds to capture the information necessary to make defensible, like kind and quality replacement choices. We do all the legwork for you – as your insured moves through the home while describing lost items on the phone, an Enservio rep guides them every step of the way in creating a list of their non-restorable contents.

Benefits include:

- Makes it easy for policholders to construct inventories during a difficult time
- Ensures all necessary “price driving data” is obtained for accuracy
- Expedites the process of getting your policyholder’s life back in order after a loss

ABOUT ENSERVIO

Enservio blends digital technology with human expertise to provide risk-free solutions for the entire contents claims process. Founded in 2004, we are headquartered in Needham, MA, with offices and professional staff across the U.S.
